

Task 4 — Supplier Risk Assessment Summary

Fast&Up; (Aeronutrix) | Supply Chain AI Intern Assignment | Arya Manjardekar | April 2026

Overview

15 suppliers assessed across 5 SKUs (3 per SKU) using a weighted composite risk scoring model. Each supplier scored on 5 dimensions: Price Competitiveness, Lead Time Reliability, Delivery Consistency, MOQ Flexibility, and Geographic Risk. Composite score = weighted average (Reliability 30%, Lead Time 25%, Price 20%, Geo Risk 15%, MOQ 10%).

Supplier Scores — All 15 Suppliers

SKU	Supplier	Country	Composite Score	Status
Reload Orange	SupplierA-RO	India	7.50	✓ Safe
Reload Orange	SupplierB-RO	India	7.05	✓ Safe
Reload Orange	SupplierC-RO	China	8.50	✓ Best
Reload E&V	SupplierA-EV	India	7.70	✓ Safe
Reload E&V	SupplierB-EV	China	5.75	■ HIGH RISK
Reload E&V	SupplierC-EV	Germany	7.40	✓ Safe
Plant Protein	SupplierA-PP	Netherlands	8.65	✓ Best
Plant Protein	SupplierB-PP	USA	7.35	✓ Safe
Plant Protein	SupplierC-PP	India	7.20	✓ Safe
Lean Body	SupplierA-LB	India	7.60	✓ Safe
Lean Body	SupplierB-LB	India	6.50	■ Moderate
Lean Body	SupplierC-LB	Thailand	6.90	■ Moderate
Daily Fiber	SupplierA-DF	India	7.60	✓ Safe
Daily Fiber	SupplierB-DF	India	7.70	✓ Safe
Daily Fiber	SupplierC-DF	Sri Lanka	7.60	✓ Safe

High Risk Flags

■ **SupplierB-EV (China) — Score: 5.75/10 [HIGH RISK]**

Only China-based supplier for Reload E&V; with lowest composite score in entire base. Primary risk: geopolitical/logistics disruption and low reliability score. Action: Qualify South Asian alternative within 90 days.

■ **SupplierB-LB (India) — Score: 6.50/10 [MODERATE]**

Below threshold reliability performance for Lean Body. Action: Issue performance improvement notice, establish SLA with penalty clauses.

■ **SupplierC-LB (Thailand) — Score: 6.90/10 [MODERATE]**

Geographic concentration risk for Lean Body alongside India-heavy base. Action: Negotiate backup contract and set quarterly performance reviews.

Recommendations

- Replace SupplierB-EV (China, 5.75) with a South Asian alternative — target composite score >7.5

- Dual-source Plant Protein Chocolate from SupplierA-PP (Netherlands, 8.65) + SupplierC-PP (India, 7.20) to reduce single-region risk
- Negotiate backup contracts for all SKUs with fewer than 2 India-based suppliers
- Conduct quarterly supplier performance reviews — update scores with actual delivery and quality data
- Set SLA minimum of 7.0 composite score for all primary suppliers; retire or demote those falling below
